Subject: Letter of Complaint

The leadership of the APS, and their custodian of public records Rigo Chavez, control public records of investigations into allegations of public corruption and criminal conspiracy in the administration of the Albuquerque Public Schools; including but not limited to the investigations specifically related to the APS Police Department.

I made requests for those records on 4/11, 4/16, 4/19.

I received one response which denied the 4/11 request based on a feigned abject ignorance of the law.

The other two requests have been so far, ignored.

I will fax and email documentary corroboration as soon as an investigator is assigned.

The leadership of the APS intends to keep evidence of their public corruption and criminal conspiracy secret from public knowledge by means of exploiting weaknesses in the NMIPRA. The will use public funds for lawyers and litigation to evade accountability to the NMIPRA.

It is my firm belief that the NMAGO must remain integrally involved in the resolution of this complaint;

as there will be formidable resistance to its principled resolution.

Grateful for your time and attention
